AVGAS 100LL Fuel

Cost of fuel is continuing to decline. New Garden Airport offers a self-service fuel terminal open 24/7 with Visa or MasterCard. Current price is \$4.30 per gallon.

EAA CHAPTER 240

Have an interest in aviation? Come visit the local Chapter of the Experimental Aircraft Association located at the airport. You don't need to be a pilot or plane owner, just have an interest in aviation to join. Local membership is 170+ who have a passion for anything aviation.

For more information visit www.eaa240.org.

Runway Project

THE PENNSYLVANIA BUDGET STANDOFF CONTINUES.

We are anxiously waiting for State Legislators to pass the Budget for funding to be released for many aviation projects across the Commonwealth. New Garden Airport is one of many airports in a holding pattern due to the impasse for our much needed runway project. The Bureau of Aviation is looking at options to release Federal Discretionary Funds to commence projects in the interim but there still has not been a final determination. We look forward to getting this project started as soon as we receive the notice o proceed from the State.

Future Aviators Summer Camp

2016 will mark the 8th year of this unique summer camp offering at the airport. Camp growth over the last 8 years has been very exciting. We started our first year with 28 campers and last year enrollment totaled 152.

Campers come from not just our local area but communities across the US for one or both of our camp weeks.

Future Aviators Summer Camp offers young people the excitement and discovery of aviation in a day-camp setting, designed for ages 7/8-15. It's a week of non-stop excitement that includes five full days of hands-on aviation and science projects, challenging activities, museum and airport tours, and other aviation experiences.

Hangar Project

Construction on the east T-Hangars is continuing. BSS Contractors, LLC was awarded the final phase of the project. Currently necessary paperwork is being filed and BSS is gearing up to start. The cement pad for the new hangar row facility will be the first to go in with the paving of the new taxiway and ramp to follow. The hangar kit is schedule for delivery from Erect-A-Tube mid December. Interested in hangar rental please contact Jon Martin to discuss options for 2016.
