MESSAGE FROM THE TOWNSHIP MANAGER

Dear Lyceum Newsletter Readers,

Spring is here and summer is not far behind. We were very lucky with no real major snow storms this year. Though, several little storms that have seemed to be right after another did put a dent into the Township’s budget for salt and overtime. Let’s hope that November and December this year are quiet on the winter weather front. Thank you once again for your interest in the happenings of New Garden Township. Following is an update on a number of matters of general interest:

Sale of Sewer System – The Township is still working to complete the sale of the sewer system to Aqua Wastewater, Inc. We are working with Aqua and the Office of Consumer Affairs currently to come to an agreement on how to move forward with the transaction. Additional information on a public meeting updating where the sale stands will be posted on the Township website and Facebook page in the upcoming weeks.

Newark Road and Baltimore Pike Intersection – The Township’s traffic consultant, McMahon Associates, is still working on the preliminary engineering for the project and is hopeful to have this engineering completed by the Fall of 2019. The project is currently on the PENN DOT transportation plan for construction in 2023.

Newark Road and Hillendale Road – Construction has begun on the intersection. Utility work will be taking place for the next 10 months to a year. In Spring of 2020 a detour will be going into effect to allow for the construction of the improvements at the intersection itself. Look to the Township's Facebook page and website for more information.

St. Anthony’s in the Hills – The Township settled on purchasing the St. Anthony’s property back in December of 2019. We are currently working to obtain funding to perform a Master Site Plan for the property. We hope to begin this process before the end of the year. Until that

Continue on Page 2
MESSAGE FROM THE TOWNSHIP MANAGER, CONT.

point there is going to be limited public access to the property as the Township cleans up and makes the property safe for public use.

**Police Station Construction** – The new police facility construction is well on its way. Everything is going well and on schedule. Construction is scheduled to be completed by mid-Summer. Keep an eye out for an announcement on an open house in late summer or early fall.

**Township Meetings** – The Township Board of Supervisors meet the third Monday of the month at 7:30pm and invite all Township residents to attend.

For regular updates about Township events, meetings and projects SUBSCRIBE to Township website email notifications at www.newgarden.org and follow us on Facebook!

---

**Interested In Joining?**

Have you ever watched the fire trucks ride down the street, sirens wailing and lights flashing, and wonder "what is it like?"

The Avondale Fire Company is ALWAYS in need of new members to join our team.

Not quite sure if you actually want to become a FIREFIGHTER? That's OK! There are several other aspects of the Fire Company that need YOUR help!

We are in need of:

* Fire Fighters * Fire Police * EMT's * Auxiliary / Fundraising

**Joining the Avondale Fire Company comes with certain benefits:**

* Various FREE training * Full Equipment
* Ability to meet new people and make new friends
* The chance to give back to the community * Tax incentives

Sound Interesting? Don't hesitate to call (610) 268-2486 and make an arrangement to come down to the Firehouse, meet other volunteers and pick up an application. Or, Every Wednesday Night between 7:00 and 9:00 p.m. is our Work Night. There will Always be someone at the station that could help you out! Take Pride and help us help OUR Community.

For more information or to download an application visit: http://www.afc23.org/content/volunteer/

Welcome, Damon Cinaglia
New Garden’s new Zoning/ Codes Officer

After faithfully serving for many years as the Zoning and Codes Officer here at New Garden, Don Suckstorf retired at the end of last year. And while he enjoys hunting and fishing, I am enjoying being your NEW Zoning and Codes officer. I am officially an employee of Building Inspection Underwriters (who has enjoyed a long-term relationship with New Garden Township), but I am assigned almost exclusively to the office here.

While I do not yet have Don’s extensive knowledge of this great community, I do bring other skills in technology and organization which I believe will serve the Township well. I look forward to meeting many of you out in the community and in the office when you come in for questions.

Here is some personal information I hope you find fun.

What did you want to be growing up?
A Zoning and Codes officer! 😊 In truth, I’ve always been a dreamer, so I didn’t really have “one thing.” I wanted to be a movie star at one point, and actually moved to Los Angeles to pursue it. But in the couple years I was out there, I did grow up, and decided to move back home.

What was your first job?
McDonalds. I used to run both drive-thru windows by myself, taking the orders at one and filling them at the next. People thought I was a twin!

Tell me about the workday of a Zoning Officer/ Codes Enforcement?
It’s all about serving people, and keeping meticulous records. I answer questions from residents and businesses, research code, process permit applications, research code, investigate complaints and violations, research code, interact with Township boards and personnel... and did I mention that I research code?

What three words best describe you?
Loyal, personable, helpful

Who would you most like to meet and spend time with?
Already met her, and get to spend time with her every day. 😊

What is your life philosophy?
Philippians 3:7-9

Where would we find you after hours?
Hanging at home with a small group of friends or family (or their home).

What is your favorite thing about New Garden Township, so far?
My co-workers in the office are awesome, and so is the natural beauty of the trees and parks / preserves.

Damon is at New Garden Township Offices Monday-Friday, 9:30am-1:30pm to address any of your permitting, zoning or codes questions.

Stop in to welcome him to the neighborhood!
2nd Annual Brandywine Backyard BBQ Festival in New Garden Park

Second Annual Brandywine Backyard BBQ Festival - a Community Event! All Welcome!

Landenberg, PA - Come one, come all on Sunday, April 28, from 12 - 5 pm, to enjoy BBQ, activities for children and teens, live bands, as well as craft and public service tables at New Garden Township Park, 8938 Gap Newport Pike, Landenberg, PA 19350. The Chester County Council, Boy Scouts of America and New Garden Township will host The Brandywine Backyard BBQ Festival, sanctioned and judged by the Kansas City Barbeque Society (KCBS). This BBQ competition and fun event will defray the cost of scouting for area youth through the Friends of Scouting Program. Specifically, this community fundraiser benefits scouts in the Kennett Consolidated, Unionville-Chadds Ford, Avon Grove, Octorara, Oxford and Cecil County School Districts helping them pay for uniforms, registration fees, camps, and leadership training. It will also help improve local camps and create awareness of scouting’s benefits.

Bring your lawn chairs and listen to live music from two great bands: Old 442 and The Late Ambitions. While KCBS judges will be sampling the competitors' chicken and ribs entries, the public can purchase a variety of foods and drinks from 22 BBQ, Swamptown BBQ, Uncle John's BBQ, Natalie's Fine Foods, On the Roll, Rita's Water Ice, Baked of West Chester, Harvest Ridge Winery and Victory Brewing Company. Kids and teens can have fun with a bounce house, archery, paintball to a target, a gaga pit, spike ball, giant checkers, giant Jenga, ladderball, corn hole, volleyball/badminton, giant bubbles, Twister, a huge playground, face painting, kite flying, and more! If you would like to show off your BBQ skills to win cash prizes, be a sponsor, or simply want to come out for the food, drinks, and fun (and an entrance fee of just $3!), please sign up in advance at www.brandywinebbq.com. Check website for parking details prior to arrival.
New Garden Lyceum Rehabilitation

By: Lynn Sinclair, Chairperson of New Garden Historic Commission

Built in 1852, as a place for public gatherings, the New Garden Lyceum has also served as a public school, township office, polling place and a private workshop and storage space. It was moved to New Garden Park in 2012 and placed on a concrete foundation, where it sat unused for 5 years. In 2016, the New Garden Historical Commission began making a list of repairs that would be needed to preserve the building.

Before the move, the Lyceum had been eligible for listing on the National Register of Historic Places. The Center of Historic Architecture and Design at the University of Delaware was hired to do a study of the building. After reviewing this report, the PA Historic Preservation Office deemed it eligible for National Register listing. To maintain eligibility, contractors would be chosen for their experience with historic materials and methods.

A restoration contractor was hired to rebuild the windows, frames and door, replace rotten or missing siding and remove the finish on the flooring. Removing the top layer of flooring revealed more termite damage than expected. Another contractor was brought in to remove the deteriorated floor boards and replace them with wood planks from the attic floor. Some of the planks are twelve inches wide! It was decided to install dry wall over the plaster ceiling, but after consulting with the contractor about the poor condition of the plaster, it was removed and dry wall was installed directly to the joists. Once the new ceiling is up, the electrician will run wiring for lights, receptacles and electric baseboard heaters. Next, the floor will be sanded and finished and a 12’ slate chalkboard will be installed. Interior painting still needs to be considered but the pencil graffiti left by mischievous school girls, in 1899, will be left intact.

Two coats of paint and installation of half round gutters completed almost all of the exterior work. Commission members will have a work party as soon as the weather cooperates, to clean, sand and paint the shutters.

This summer, the Historical Commission hopes to celebrate the completion of the Lyceum rehabilitation with History Night: The New Garden Lyceum, which had to be postponed due to a snow storm in November.
A few years ago, Township Supervisor Pat Little encouraged the formation of a committee to increase Township transparency and improve communication with New Garden residents. A committee was formed with Township staff, local organization leaders and residents. The mission of what we call today The New Garden Communications Committee is to continually review and evaluate the most effective ways for the township to communicate with residents and local businesses. This ensures that the activities of our local township are transparent, and understood by its residents. Over the years some of the accomplishments of the team have been:

- Migrating to a new website platform for the township and Southern Chester County Regional Police Department.
- Establishing a social media presence with Facebook and Twitter accounts.
- Enabling residents and businesses to sign up for emails for those areas of interest; i.e. Supervisor meetings, Police info, etc.
- Mailing a township map with key township contacts to residents that was paid for by advertisers.
- Producing a semi-annual Newsletter that is posted on the website as well as emailing the link when published.
- Ensuring the many township events are communicated through the website and social media.
- Creating a summary performance dashboard that shows at a glance how the township is doing in various categories that are being measured.

One of our recent activities was to develop a survey that would help us understand how best to deliver township information in the most effective way possible to the residents and businesses. We received 90 responses, and some of the key results are summarized below. If you would like to see the full survey responses, please click on: https://www.surveymonkey.com/results/SM-2WVYN8BRV/

- Information is currently received by email notifications (71%), website (66%), township newsletters (46%), word of mouth (53%), and local papers (31%).
- As far as satisfaction with the way information is currently received, 76% are satisfied or very satisfied, 19% are neutral, 1% were dissatisfied, and 3% were very dissatisfied.
- As far as being satisfied with the electronic newsletter vs a printed copy, 85% are satisfied with the electronic copy, 9% would like paper mailed copies, and 1% would prefer to pick up at the township building. There are always printed copies at the township building for pickup.
• For thoughts on attending the public Board of Supervisor meetings, see the ranking below:
• Regarding the preferred method of receiving information going forward, see the ranking below:

If you have any other comments or suggestions regarding communications or interest in joining the Communications Committee, please feel free to contact the township via phone (610-268-2915) or email (office@newgarden.org).

To sign up for Township email alerts (including Supervisors meeting agendas), go to: https://www.newgarden.org/subscribe

For volunteer opportunities, go to: https://www.newgarden.org/administration-supervisors/pages/volunteer-opportunities

New Garden Park
8934 Gap Newport Pike, Landenberg, PA
New Garden Township is a recipient of the DVRPC Transportation and Community Development Initiative grant to fund the engineering of a Streetscape and Transportation Improvement Plan in the Village of Toughkenamon.

A committee of Township Officials, residents and business owners has been created and tasked with producing a schematic streetscape plan and identifying areas where improvements can be made to the severely lacking available transportation and mobility in the Village of Toughkenamon, as well as improvement to aesthetics, housing diversity, investment and community revitalization.

The plan will provide for a mixed-use business corridor along Newark Road, Baltimore Pike and Main Street that will focus on development with sidewalks, ADA considerations, safe routes to public transportation, crosswalks, pedestrian amenities, landscaping, a park and overall beautification of the Village that will attract investors, visitors and economic growth potential. The Plan will focus on sidewalks that connect to business, public spaces and public transportation to promote residential revitalization and provide for alternative transportation mobility.

McMahon Transportation Engineers & Planners, together with Thomas Comitta & Associates, will lead the committee to communicate through public meetings, surveys and plan review periods, with community partners, businesses and residents to ensure that priorities are identified to create a safe, walkable community where residents and businesses thrive. The plan should identify zoning changes necessary to invite stakeholders and developers to invest in the village of Toughkenamon’s housing quality, diversity, affordability and business growth and retention.

Please watch for upcoming public outreach efforts and get involved!

The Medicare **Initial Enrollment Period (IEP)** is the seven-month period surrounding your 65th birthday, including the month you turn 65. Starting 3 months before and ending three months after the month of your birthday, you should sign up for Medicare, or at least Part A (hospital) coverage. If you are already collecting either Railroad Retirement or Social Security retirement or have received disability benefits from either source for 24 months, when you turn 65, enrollment in Medicare A and B (medical) will be automatic. You will be automatically enrolled sooner if the retirement or disability benefits are because of End Stage Renal Disease (ESRD).

For those not automatically enrolled, there are various Medicare enrollment periods other than IEP during which you can apply for Medicare; however, you may be subject to late-enrollment penalties because you did not sign up for Medicare when you were first eligible. The exception to this penalty is health coverage through active employment by you or your spouse. The coverage must be at least as good as Medicare and does not include COBRA or retiree benefits.

If you did not enroll during the IEP, there are two other options that may apply. There is a **General Enrollment Period** for Original Medicare from January 1 through March 31 of each year. If you enroll in Medicare during the General Enrollment Period, your coverage begins in July. Late enrollment penalties may apply. Under certain circumstances you may be eligible for a **Special Enrollment Period**. An APPRISE counselor can help you determine if this is an option for you.

**APPRISE** is Pennsylvania's statewide program of free insurance consultation under the auspices of the Chester County Department of Aging Services and the State Health Insurance Assistance Program. You can leave a message on our Helpline 610-344-5004 or 1-888-899-1001 ext. 5253 or e-mail apprisechesco@outlook.com or visit our website [http://www.chesco.org/477/Apprise-Health-Insurance-Counseling](http://www.chesco.org/477/Apprise-Health-Insurance-Counseling).

---

**Opening Day**
**May 4th, 9am-1pm**

The New Garden Growers Market is located at **8934 Gap Newport Pike (Rt. 41)** in Landenberg, PA, in front of the New Garden Township Maintenance Garage and next to the entrance into the New Garden Township Park. Parking is available on either side of the market.
2018 was an expansive year for conserving open space in New Garden Township. A discussion with a large land owner initiated in 2012 culminated successfully this year thereby significantly expanding preserved open space by 106 acres. Also, this year members of the Open Space Review Board (OSRB) engaged with several property owners inquiring about conserving their property. These inquiries are, potentially, an additional 130 acres that could be added to conserved lands in New Garden Township. Page four shows an overall summary map of New Garden Township protected properties.

Organization

- In January, the OSRB elected officers: Chris Robinson, Chair & Trail Coordinator; Randy Lieberman, Vice Chair; Dave Unger Treasurer. Secretarial task were assigned on a rotating basis among the members.
- OSRB members Randy Leiberman, Suzanne Geouque, Joe Miscione and Chris Robinson were reappointed for a 3-year term.
- Members of the OSRB volunteered over 400 hours of their time to their duties as Board members; site visits, property evaluations and preparing reports for the Township Supervisors. Several OSRB members are also active with the Friends of the New Garden Trails.
- In October Erin McCormick, Natural Lands Trust (NLT) consultant for the OSRB, introduced her associate and replacement, Kate Raman. Since 2012 Erin helped protect over 325 acres while simultaneously educating the OSRB about the entailed land conservation process. Erin’s valuable assistance preserved the quality of life in New Garden. During her seven years with the OSRB two large properties are now protected open space, Green Valley and St. Anthony in the Hills. Starting in December of 2018 Kate Raman now provides NLT’s excellent consultation service toward the OSRB’s ongoing objective preserving New Garden Township’s undeveloped lands and expanding its Greenway trails.

Reports

- 2017 Annual Report sent to Tony Scheivert, Township Manager.
- OSRB developed methodology listing priority properties for conservation protection and trail easements.
- OSRB provided future list of priority properties map for the 2018 Comprehensive Plan.
- OSRB members presented slide show report to BOS meeting in December recommending purchasing conservation easement for two properties.

Major Projects/Activities

- Saint Anthony in the Hills is now protected. The OSRB initiated discussion in 2012 culminating in December 2018 when the Township purchased the property’s camp land (137 acres). During 2018 Township manager Tony Scheivert, Erin McCormick and solicitor Vince Pompo finalized an agreement with the St. Anthony Parish to
purchase the property restricting 106 acres for open space and the remaining acres containing a variety of public structures for best public use. Unlike previous land protection acquisitions this property include a fascinating diversity of sturdy facilities used for children, families, individuals and organizations all in beautiful setting of woods, ponds, fields and walkways. St. Anthony in the Hills Camp was founded in 1969 by Father Roberto Balducelli of the Parish of St. Anthony, Wilmington, Delaware.

- Per Board of Supervisors and the 2018 Comprehensive Planning Committee’s requests, OSRB members embarked on prioritizing properties for conservation based on inherent features and attributes.

**Other Activities**

- Chris Etherington, resident of the McClellan Farms neighborhood, expressed interest in and advocacy for sidewalks and trails, especially along Pemberton Rd. The possibility of trail connections to Kennett Twp. trails under development and a valuable asset to both townships was discussed.
- Sarah Hazelwood from the Historical Commission informed the OSRB about the historic Taylor barn property and recommending preserving the adjacent properties.
- Josie Marsh from Bike Kennett discussed with OSRB regarding trails & sidewalks along Scarlett Rd and South St; a multi-use trail between Somerset and Kennett Middle School and one along Pemberton Rd.
- OSRB received requests from the Historical Commission asking for input regarding proposed demolition of historic house on Middleton property.
- Steve Allaband made an informal visit to the group to discuss the Official Township Map meeting that took place and talk about upcoming plans for trails. Subsequent discussion followed with the Official Map Committee meeting in November.
- Kate reviewed expanded maps she created at several high-density areas that will help OSRB target property owners to contact to obtain trail easements and connect the trails in one large circuit.
- Friends of the Trails members Bernie McKay, Don Peters, and Dave Hawk shared their insights, priorities, and residents’ input gained through their many years building and maintaining the New Garden Trail System.

For information or to sign up as a volunteer visit the Newgarden.org and Friendsofthenewgardentrails.org.

Note: The OSRB meetings are held at 7:00 PM on the third Tuesday of each month at the Township building on Starr Road. The public session of the meeting are open to the public and all are welcome to attend. An executive session follows the public session where all Open Space Review Board discussions about proposed or ongoing property and easement acquisitions are kept confidential and privileged. The Board of Supervisors holds a public hearing for the proposed expenditure of open space funds for each proposed acquisition. The OSRB invites residents to attend its public session to learn about the Township’s protected lands, trails, wildlife, agriculture, history and the process to preserve land.
During 2018 the Township (OSRB) added 106 acres to preserved open space bringing the total to 327 acres. A total of 1,823 acres, or 17% of New Garden Township, are to a degree protected from development:

* 221 acres under a conservation easement. Some with trails.
* 202 acres are in preserves, some with trails.
* 244 acres contain the Township Park, Township Airfield and trails.
* Land Trust easements preserve 93 acres.
* Municipal undeveloped open space contains 15 acres.
* Three farm properties are under an agricultural easement totaling 288 acres.
* 263 acres provide land for sewer treatment.

Though they may looked gerrymandered, 497 acres are preserved by Home Owner Associations. (HOA)

FUTURE AVIATORS JAMBOREEE
MAY 18TH

New event for 2019

Make plans to attend our first Future Aviators Jamboree fly in (or drive) camp out at N57. We have a full afternoon planned of activities. This event is structured to attract youth that have an interest in aviation. It is designed to be a family focused aviation event.

Professionals in their aviation field will be onsite to present and answer questions on topics in careers, colleges, scholarships, and FAA STEM/AVSED programs.

Representatives from colleges, pilots, mechanics, and the FAA will be available to give their personal answers to your aviation questions in a panel format presentations.

Many other family activities throughout the day include hiking, Airport MV tours, archery and a spot landing contest. The evening will be filled with the sounds of DJ MIKE, an RC night show, hot air balloon glow, movie, bonfire, bingo and MORE. BBQ lunch and pasta dinner is also included with your
**SUMMER IS COMING!**

Registration is now open for the FUTURE AVIATORS SUMMER CAMP. Camp dates are July 8 - 12 and August 5 - 9. Registration forms available online at [WWW.NEWGARDENFLYINGFIELD.COM](http://WWW.NEWGARDENFLYINGFIELD.COM). Many new exciting changes and additions planned for this year. **We can’t wait for camp time at N57!!!**

---

**Mitchell George heads to the USAF.**

Over the last 3 years Mitchell has been with the flight school as an instructor and has provided the training for many to fulfill their dreams of becoming a pilot. He will be leaving us and heading to flight school to become a pilot in the United States Air Force. Even though he will be missed, we are so excited for him and the future opportunities that lie ahead. Mitch- Fly! Flight! Win!

Future Aviators Pavilion Constructed at N57

During 2018 the Airport ran a fundraising campaign to build a 30x40 (timber-frame) Future Aviator Pavilion at the airport on the hill overlooking runway operations. This pavilion will not only be an asset for the Future Aviators Program but will also provide a place for the community during the year to come to the airport and watch airport operations. The pavilion will be conveniently situated on the hill across from the EAA overlooking the runway but also right across from our newly developed nature and fitness trail along the north section of the airport. This Pavilion will be available to the EAA for additional seating for pancake breakfast and for Glider club functions during the summer.

We started the Future Aviators Program in 2009 to expose kids to all aspects of Aviation. This program started as a week of summer camp at the airport and now has grown to a year round program with two week long summer camps and a Future Aviators After the Bell program in local schools. The success of the program has been incredible. We started with 28 campers and now attract over 165 campers throughout the summer to our wonderful airport in New Garden Township. We have given over 1100 introductory flights as part of this program. Several of our Future Aviators now have joined the leadership team for the camp as counselors and have gone on to attend colleges with a focus in aviation. Several campers have also received their pilots license when they turned 17. We now have some youngsters that started out in our Future Aviators Program and have gone on to become airline and corporate pilots, and some in the military flying the most technology advanced aircraft and helicopters. Annually we have youngsters attend our program from not just the local area but CA, TX, NC, SC, NY, NJ, DE, MI, VA, GA and Florida. We even were fortunate to have a youngster attend from Qatar.

Make plans to attend our GRAND OPENING on May 18th during the start of our Future Aviators Jamboree.
West Box Hangar Development

Last year we announced a unique hangar opportunity at New Garden Flying Field for owners to construct a box hangar under an land lease agreement. Working with the Airport’s Engineer we are gearing up to bid the site work for this exciting project offering space for (6) 60’x60’ box hangars. All six spots are under agreement and we expect to see these new hangars on the west ramp of the airport soon.

New Aircraft Maintenance Facility Opens In The Aviation Center.

Our goal is to create long term relationships with our aviation customers based on trust, reliability, safety and unparalleled customer service. We have listened and look forward to working with you now and in the future on keeping you and your aircraft in the air.

If it has wings, we will work with you on your aircraft’s maintenance and servicing needs. Certified, Experimental, Antiques, Classics and Gliders- WE LOVE ALL TYPES OF AIRPLANES!!!!

Stop in the Aviation Center and check out our new facility today. To schedule maintenance call the airport at 610-268-2619. For emergency maintenance please call Jon Martin, 610-476-1702.
Time To Get Your Transponder Checked?
Is your transponder check current? If not sign up to get checked on Thursday April 17th at N57. VFR and IFR checks available.

If you are interested please contact the Airport office, 610-268-2619. Include what type of inspection, VFR or IFR, N-Number, and manufacturer serial number of the TX and Encoder.

Federal aviation regulations call for transponder inspections every 24 calendar months.

2019 Airport Events
May 18-19 Future Aviators Jamboree Camp Out
June 1 Run the Runway 5K
June 21-23 Chester County Balloon Festival
July 8-12 Future Aviators Summer Camp (Week 1)
August 5-9 Future Aviators Summer Camp (Week 2)
August 17-18 Festival of Flight Air & Car Show
At FIT4MOM Kennett Square/Hockessin, our goal is to help moms make strides in fitness, motherhood, and life, and achieve their ultimate potential, both physically and emotionally.

**Stroller Strides®**

Stroller Strides® is a total fitness program for new moms and their babies combining running and/or power walking, body toning, strength and flexibility exercises using both the environment and the stroller. All classes are taught by a certified fitness professional with a specialty in pre and post-natal fitness. In addition to providing a challenging full body workout for moms scaled to each participant’s fitness level, we engage the children throughout our classes through songs and activities, creating a fun and enriching experience for all, and inspiring children to emulate their moms and make fitness a part of their lives.

https://kennettsquare.fit4mom.com/stroller-strides

**Our Village**

We offer a free Our Village playgroup after class on most days that is open to the community, featuring crafts, story time, sensory play, guest speakers, gross motor play & more. As part of Our Village, facilitate regular after class “adventures” to explore our local community, have fun, and learn about healthy living! (Some activities may require admission fees to local attractions)

We also have monthly Moms Night Out and regular Family Events to help build and strengthen our community, and provide emotional and social support for moms beyond the workout. Our moms also participate in athletic and non-athletic charitable events to support causes/issues affecting our families and community!

**Body Back®**

For mamas looking for a more intense and focused kid-free workout, we have Body Back Transformation, an 8-week program with two 60m HIIT workouts per week designed specifically for moms (or any woman looking to make a positive change in their health & fitness!) Body Back is held Tuesday/Thursday evenings from 8:00-9:00 at New Garden Township Building.

In addition to the workouts, Body Back focuses on whole food nutrition, meal planning, realistic fitness and personal transformation goal-setting with pre and post fitness assessments, with ongoing support and accountability with the group and trainers with all aspects of the program. Most importantly, the program also encourages self-care and personal growth, ending each workout with a reflective meditation, and helping participants to challenge perceived boundaries in their physical abilities and other perceived barriers towards achieving their goals. We also offer team building activities, MNOs, community events, and more to help strengthen connections between the participants and like our stroller fitness program, give back to the community.

The Southern Chester County Regional Police Department invites the public to review our 2018 Annual Report. Below are the highlights from three categories, Crime, Traffic and Budget. The report however offers a comprehensive look into these activities and experiences; click on the link below to download a copy:

2018 Annual Report

Crime Data
The communities served by the Southern Chester County Regional Police Department experienced a ten percent (10%) reduction in Part I crime and a two percent (2.15%) reduction in Part II crime. Our total crime activity experienced a nearly four percent (4%) decrease in year 2018 when compared to the year 2017. The Part I crime category that experienced the largest decline is the crime of Burglary, which had an overall reduction of thirty-six percent (36%). This is a result from having dedicated investigators that are trained and equipped to handle complex cases. Additionally, we believe that having a proactive and visible policing model creates an atmosphere of omnipresence and thus deterring the opportunities to commit crimes.

Traffic Data
The communities served by the Southern Chester County Regional Police Department have also experienced a seven percent (7%) increase in traffic collisions in the year 2018 when compared to the year 2017. Empirical evidence points to inclement weather as being the primary factor for the increase in collisions.

Traffic citations and the subsequent punitive enforcement actions have increased by thirty-nine percent (39%). In 2018, the department participated in several aggressive driving initiatives throughout the year, but also during historically high-volume periods, such as holiday travel. This may account for some of this increase.

DUI arrests are up by a staggering sixty-six percent (66%) in the year 2018 when compared to the year 2017. The preliminary data suggests that this a result of officers being better trained to detect driving under the influence of alcohol, but also under the influence of drugs. Twentynine percent (29%) of all DUI incidents were a drug related incident.

Budget Data
In addition to our communities having a safer community, the good news culminates with the announcement of a nearly ten percent (10%) decrease in projected costs to operate the Southern Chester County Regional Police Department.
Traffic Safety Unit

In 2019 we hired an additional police officer, which allowed us to create a Traffic Safety Unit. This sole officer will be tasked with several objectives, to include collision and speed analysis, effective enforcement details and fleet management. Later in the year, the TSU officer will attend training related to commercial vehicle enforcement. Below is a photograph of the TSU police vehicle.

Promotion

Since the inception of the regional police department in January of 2017, Lt. Greenwalt has been serving on the Chief’s Command Staff and overseen many projects and tasks on the Management Team.

We are pleased to make his rank and title equal to the outstanding service he has performed for the Regional Police Department and our communities. The members of the Southern Chester County Regional Police Department wholeheartedly congratulate Lt. Joseph F. Greenwalt on his promotion to the rank of Lieutenant.

2018 Awards Ceremony - Great work by your public servants

On Thursday, March 14, 2019 the Southern Chester County Regional Police Department hosted their second annual Award and Recognition Ceremony. The Department recognized several police officers and a civilian for their exceptional work in 2018!

COMMENTARY:

In the two-years since our inauguration, I have been asked countless times --- how’s that regional thing working out? Admittedly, my responses at times may have appeared to lack the enthusiasm and zeal I energetically displayed that winter evening on January 12, 2017.

Unforeseen and unanticipated challenges can make even the most confident and passionate leader question their decisions. Fortunately, patience and persistence have yielded fruits of our team’s many labors. My response to that question --- This “regional thing” is by far the best arrangement (for us) to deliver high quality public safety services at an economically stable cost!

The Southern Chester County Regional Police Department publishes three quarterly and one annual report. We hold ourselves accountable and in the spirit of transparency, we release these reports and invite the public to question our work. We hope our readers take time to evaluate the data and commentary. We perform analysis in perpetuity, so that we can hopefully be ahead of trends that can often have detrimental impacts on a communities’ quality of life.

“United to Serve Our Communities with Excellence”
Civilian Award Recipient

The first recognition was only the second time they have bestowed this prestigious award; the Meritorious Service Award. Our assertion, is that the Meritorious Award by its definition fits our recipient, whose voice framed and influenced many decisions impacting our communities, to include his adamant support of regional policing. Whether you agreed or disagreed with his opinions, which were published weekly in the Chester County Press until his death, his was a voice distinguishable, conspicuous and courageous among a crowd and by his lifetime of acts served to make our communities a safer place to live. Unfortunately, our recognition is posthumous; Mr. Irvin Stone Lieberman, affectionally known as “Uncle Irv” passed away on December 29, 2018.

2018 DUI Enforcement Awards

The second recognition is a 9-year tradition originally influenced by the Mothers Against Drunk Driving advocacy group---our annual DUI Enforcement Award. The Southern Chester County Regional Police Department “UNITED TO SERVE OUR COMMUNITIES WITH EXCELLENCE.” distinguishes this enforcement and its police officers whom proactively enforce this behavior which makes our community a safer place.

There is no debate, their hard work has made the communities of New Garden Township and West Grove Borough a safer place to live and travel. In 2018, the police department experienced a 65% increase in DUI arrests of which 29% of the incidents involved a controlled substance, such as marijuana or opioids. The below listed police officers will receive a DUI Enforcement Award ribbon for their 2018 enforcement efforts.

1st Year Award

Police Officer
Gregory Blue

2nd Year Award

Police Officer
Stephen Syska

Police Officer
Raymond Sullivan

3rd Year Award

Police Officer
Benjamin Brown

Police Officer
Jeremy O’Neill

Lifetime Award

PFC Ryan Kushner
2018 Commissioners Award

Our final recognition of the evening, is our most prestigious award to a police officer for conspicuous and exceptional work during the year noted.

Our 2018 Commissioners Award recipient is Police Officer Raymond Sullivan. While there were many exceptional acts of performance, one stands out among the rest. On April 10, 2018 Officer Sullivan responded to a report of “suspicious condition.” Upon arriving at the scene within minutes, which was a location bordering a jurisdiction not covered by the Regional Department, Officer Sullivan quickly assessed that a residential burglary was in-progress. His quick and decisive actions resulted in the capture of multiple actors which were later turned over to the law enforcement jurisdictional authority.

This type of call can be anything from a benign event to a deadly encounter. Police officers are required to act and process events quickly with sparse information, use their training, observations and instincts to make decisions on how to act while keeping themselves and others safe. This courageous conduct is guided by our first core value, Human Life!

From being a leader in traffic and DUI enforcement to the many supervisory notations, Officer Sullivan stood above and beyond his peers in 2018---conspicuous and exceptional indeed.

For more information about this and other public safety activities find us at our website The Southern Chester County Regional Police Department, Crimewatch, Facebook or on Twitter @1SCCRPD. Questions about this press release can be directed to the Chief of Police’s office at 610-268-2907, extension 105.
New Garden Public Works

By: Ken Reed, Public Works Director

Winter Projects

The winter storms kept us pretty busy this year. While we didn’t receive a lot of snow in regards to total snow accumulations, we did get a decent number of storms. For the most part, it doesn’t matter if we get an inch of snow or a foot, we still go out to treat the roads. A lot of times a small storm requires just as much, if not more salt than a large storm. The reason for that is with a big storm we will go out and put a round of salt down and then when the snow starts to accumulate and “overpower” the salt, we start plowing the roads off and basically save material. Once the storm is done we push back the roads, clean up intersection/Cul-de-Sacs and then, if needed, put another round of salt down. However, on a small storm we will have to go out and put salt down just like the big storm, but here starts the difference: Depending on a number of factors (like air/ground temperature, amount of snow, timing of storm (day vs. night, and even January vs March,) intensity of storm, etc.) with storms that are anywhere from 2-4” we could have to go out and salt a second time which is literally twice the amount of work.

Throughout the winter we stayed ready to attack any winter storms that impacted our area. We were called out twenty-one times throughout the 2018-2019 winter season for anything from salting to plowing and cleanup to just spot checking due to blowing snow or below freezing temperatures. Due to the constant low temperatures and the amounts of snow on most storms, we ended up salting twice on the majority of the storms. So while we were low on overall snow fall, we were high on salt usage. This year we used roughly 1,500 tons of salt to combat the winter precipitation. Our average salt usage is only about 1,000 tons per season and at roughly $60.00 a ton that overage added up quickly.

Spring Operations

With the warmer weather that spring normally brings we go out and check on all the roads to see how they fared through the winter. We generally have a list of roads that we plan on treating for the next few years, but every spring that slightly changes due to the abuse the roads take over the winter. Some roads hold up better than others, for unknown reasons, and due to that we have to alter our planned roads to keep the roads as safe as possible. We will go out and walk the majority of the roads to get an up close and personal look at each of them and determine what is needed before we pave or seal them. If you pave over an area that has a bad base you are simply putting a Band-Aid on an issue. The issue will come back very quickly and the money spent to repave the road was basically wasted. While walking the roads we take measurements of the overall length and width of the road to accurately calculate the amount of material the road will need to be repaired. We also will mark and measure any areas that need to be repaired before the paving process starts, whether it be a pipe...
replacement or simple base repair. Another item we look for is underground utilities, we compile a list of all underground utilities within the roadway we are treating. Each manhole and valve is opened, which can be a project in itself, due to many lids not being visited for many years, and measured. We will order new risers for manholes and contact the other utility companies for risers for their lids in order to bring the lid or cap up to the new road elevation.

We have identified a number of roads that will be treated this year for our annual paving and sealing processes. For 2019 we have budgeted $483,400 this year for road work. The money will be utilized to the best of our ability to make the repairs go as far as possible. We are planning on paving or sealing about 4 miles of roadways this year and the work should be completed in late August. That number will hopefully be slightly higher when the time comes for the projects to start. We are using estimated costs at this point, but we will have our bid openings in roughly the second week of April. At that point we will know exactly what it will cost us to pave or treat a particular section of roadway. With those numbers we can lock in a final number on actual cost and maximize the money spent.

As always, we will be doing the normal routine for spring and summer work. That includes base repair, tree trimming, sign maintenance, road bank mowing, inlet inspections, pipe/inlet repair/replacement, and so much more.

Stay Alert

The warmer weather means we are out working on and along the road far more frequently than in the winter. Please remember to respect all signs both in and out of active work zones. If you see signs for road work or a road closure, please obey them. They are for your safety and ours.

Greener Pastures

We recently had an employee leave the Public Works Department after ten satisfying years. He was an excellent employee and was instrumental in assisting with setting up and compiling the data required for our recently implemented GIS system. He was always looking to improve the Township in one way or another. He was always lending a helping hand on our projects and was the go to person for a lot of the tasks we perform. Conry Clemens will be greatly missed and we wish him the best of luck as he returns to school to become an airplane pilot.
NEW GARDEN GROWERS MARKET OPENS MAY 4TH

The New Garden Growers Market will open for its 15th season on Saturday, May 4th.

The Growers Market is open every Saturday from May 4th to November 23rd, rain or shine, from 9:00 a.m. to 1:00 p.m. It is conveniently located in Landenberg off of Route 41 in the parking lot of the New Garden Township Maintenance Garage (8934 Gap Newport Pike), just three miles north of Hockessin (DE), 3 miles west of Kennett Square (PA), 1 mile south of Avondale (PA), and five miles south of West Grove (PA).

Deeply committed to supporting local farmers and artisans, the Market features over twenty vendors who bring a wide variety of quality foods and gifts that are grown, raised and made in the area. There is never a shortage of fresh fruits and vegetables. Along with produce, the market offers naturally-raised meats, eggs, cheeses, coffee, mushrooms, and fresh-cut flowers. Customers can also find gourmet prepared foods, a variety of fresh baked goods, natural dog treats, local honey, jams & jellies, and handmade crafts and soaps throughout the season.

Stop by on opening day to enjoy the first fruits of the season and enter a raffle for a chance to win a basket of local goodies. The market is also partnering with Laurel Valley Soils of Landenberg, PA to celebrate International Compost Awareness Week. Laurel Valley will be selling locally-made compost at the market on May 4th and May 11th with all proceeds going to the PA Horticultural Society’s City Harvest Program. Stop by the market to pick up a bucket or truckload of high-quality compost to get your own garden growing.

While May is early in the growing season, customers can expect to find asparagus, rhubarb, lettuce of all kinds, spinach, kale, radishes, arugula and spring onions. By mid-May, strawberries and peas will be available with new fruits and vegetables appearing each week. Stop by the market information table for ideas on how to use the beautiful and delicious local offerings.

Special events for adults and children are planned throughout the season. These events are free and a great way to connect with your farmers, producers and fellow community members. Check the market’s website and Facebook page for more details on these fun events.

The New Garden Growers Market offers something for everyone. In addition to selling produce and local goods, the market is a space for members of the community to gather each week. Bring your family and be part of the fun.

For more information, including directions and a full list of vendors, please visit their website: www.newgardengrowers.com

Contact: Heather Sachs, New Garden Growers Market
302-463-0713 (cell) or newgardengrowersmarket@gmail.com
The 2019 Municipal Primary Election is on Tuesday, May 21st. Positions on the ballot are: **Township Supervisor, School Board, Judge of the Superior Court, Judge of the Court of Common Pleas, County Commissioners, District Attorney, Prothonotary, Recorder of Deeds, Register of Wills, Sheriff** and **Township Auditor**.

There are three Election Boards in New Garden Township serving three respective precincts each containing a polling station (where to vote). Referring to the map, Precinct 385 serves the north part of the Township where its **registered voters** vote in the Bancroft Elementary School. Precinct 390 serves the middle part where the Township building houses its polling station. Precinct 391 serves the southern portion of the Township. The Kennett Middle School provides the polling station for its residents.

All the Election Boards are managed by three elected officials and volunteers (“clerks”). Three elected positions are for Judge of Elections, Majority Inspector and Minority Inspector. If an Inspector isn’t present or available, then the Judge selects one for that Election Day. Inspectors and clerks operate the voting machines, record the voter’s name and account for the ballots cast. The day is long for the board members, some attending the polling station for the entire day. Setup is 6AM. Voting begins at 7AM and closes at 8PM. Then, depending on the number of voters that day, the process can take another two-three hours counting ballots, tabulating the vote and two members delivering the ballots to West Chester Voter Services. Members of the Election Board are compensated for their duties.

Turnout for the May primary election is always lower than the general election partly because Pennsylvania election law requires voters to be affiliated with the Republican or Democratic Party to vote in primary elections. (See May 2018 primary Results table). In New Garden these two parties comprise eighty percent of registered voters. Independent registered voters comprise twenty percent. All 6,860 registered voters participate in the November Presidential and Mid Term elections.

Consider volunteering for your Election Board. It’s fun and rewarding. You meet neighbors you know and didn’t know. Greet first time voters and new residence to the community. And, when there’s a lull, catch up with local and national news. To apply contact your Election Board or your precinct’s Judge of Election the next time you vote. Visit [https://pachestercounty2.civicplus.com/FAQ.aspx?TID=70](https://pachestercounty2.civicplus.com/FAQ.aspx?TID=70) for more information.
NATIONAL TRAILS DAY

SAVE THE DATE

JUNE 1, 2019
11 AM - 2 PM

More details to come at:
www.newgarden.org
